

Integrated Biomedical Sciences Seminar Series

**“The PIK3CA-mTOR Signaling Network:
New Precision Therapies for Oral Cancer
Prevention and Treatment”**

Presented by:

J. Silvio Gutkind, PhD

Professor, Department of Pharmacology
Associate Director, Basic Sciences
UC San Diego

Achievements of Dr. Gutkind

- Chief, Oral & Pharyngeal Cancer Branch, NIDCR/NIH 1998-2015
- Bench to clinic: Elucidated signaling pathways in oral cancer, which developed into multiple clinical trials using mTOR inhibition, showing good results and low toxicity
- Editorial boards of Molecular Biology of the Cell, Cancer Prevention Research, Molecular and Cellular Biology, Genes & Cancer, Science Signaling and more

Wednesday, February 22, 2017

12:00 PM

Prince Hall/Dental School

Room PH 1101 - CE Credits

**Lunch-First 30 people who RSVP to
Cynthia Edwards (cedwards@llu.edu)**

**Discussion group following lecture in
CSP A 1010K from 1-2 pm**

**First 20 people who email a RSVP to Cynthia Edwards
will be able to attend the discussion group.**

Hosted by:

Juli Unternaehrer, PhD

Assistant Professor

**Yiming Li, DDS, MSD,
PhD**

Associate Dean for Research

LOMA LINDA UNIVERSITY
