The Center for Health Disparities and Molecular Medicine celebrates its 15th Annual Research Symposium. This year’s symposium highlights scientific presentations on Native American health and a poster session by research fellows.

Keynote Speaker:

James N. Jarvis, MD
Clinical Professor of Pediatrics, State University of New York at Buffalo
Director of Research, Division of Allergy/Immunology and Rheumatology, Women and Children’s Hospital of Buffalo, NY

Distinguished Seminar Series in Health Disparities (12:00 p.m.)

Toxic Stress and Health Disparities
The seminar will focus on how epigenetics informs understanding of the link between toxic stress and health disparities, using disease-specific epigenomes in juvenile arthritis as an example.

Keynote Presentation (5:30 p.m.)

Our Call to Improve Minority Health
Dr. Jarvis will discuss his work with the American Academy of Pediatrics Committee on Native American Child Health, as well as his work with Native American students, and how this work integrates into his role as a genome biologist.

Wednesday, August 5, 2015
Wong Kerlee International Conference Center
