CLINICAL ELECTIVES

| Elective | Course # | Department | Description |
|---------------------------|----------|-----------------------|--|
| Anesthesiology | ANES 891 | Anesthesiology | Student to work with resident and attending |
| | | | physicians in anesthesiology, participating in |
| | | | anesthesia for general surgical procedures as |
| | | | well as specialty procedures. |
| | | | Duration: 4 weeks year-round |
| Dermatology | DERM 891 | Dermatology | To familiarize students and give student basic |
| | | | skills needed for the proper approach to |
| | | | clinically examining, diagnosing and treating |
| | | | skin diseases. |
| | | | Duration: 4 weeks year-round |
| Emergency Medicine | EMDN 891 | Emergency Medicine | Students will learn basic resuscitation skills, |
| | | | familiarize student with airway management, |
| | | | introduction to managing multiple patients |
| | | | simultaneously, introduction to emergency in |
| | | | surgery, medicine, pediatrics and Ob/Gyn. |
| | | | Duration: 4 weeks year-round |
| Internal Medicine – | MEDN 891 | Medicine | Students to learn basic gastroenterology |
| Gastroenterology | | | through reading, seeing patients and discussion |
| | | | of patients and their diseases. |
| | | | Duration: 4 weeks year-round |
| Internal Medicine – | MEDN 891 | Medicine | To introduce students to nephrology. The |
| Nephrology | | | major teaching being done in the clinics, with |
| | | | consults on the wards. Self-study will be |
| | | | greatly encouraged. |
| | | | Duration 4 weeks year-round |
| Internal Medicine – | MEDN 891 | Medicine/Pediatrics | Applicants MUST be interested in applying to a |
| Pediatrics (Med- | | | Med-Peds (combined internal medicine and |
| Peds) | | | pediatrics) residency program. Rotating |
| | | | students will receive exposure to general Med- |
| | | | Peds training, which included a structured |
| | | | rotation in both inpatient and outpatient |
| | | | internal medicine and pediatrics settings. |
| | | | Visiting students will paired specifically with |
| | | | Med-Peds faculty, so they will likely not have |
| | | | exposure to categorical internal medicine or |
| | | | pediatrics faculty. An acceptance to an away |
| | | | rotation also does not guarantee that you will |
| | | | receive an interview invitation in the upcoming |
| | | | interview season. |
| | | | Duration: 4 weeks year-round |
| OB/GYN – Low Risk | GYOB 891 | Obstetrics/Gynecology | Students will work with residents and attending |
| | | | physicians on Labor and Delivery monitoring |
| | | | labor progress and participating in both vaginal |
| | | | and cesarean deliveries. Students will also |
| | | | participate in postpartum rounds as well as the |
| | | | evaluation and management of patients |
| | | | presenting to the Obstetric Emergency |
| | | | Department. |
| | | | Duration: 4 weeks year-round |

| OB/GYN – High Risk | GYOB 891 | Obstetrics/Gynecology | Students will participate in the management of patients admitted to the obstetric antepartum service and increase their knowledge in medical complications of pregnancy, as well as assist with coordination of care and utilization of hospital resources, as well as assist in both vaginal and cesarean deliveries. Duration: 4 weeks year-round |
|--------------------------------------|----------|--------------------------------|--|
| OB/GYN – Benign Gynecology | GYOB 891 | Obstetrics/Gynecology | Students will learn the management of patients presenting to the Emergency Department with gynecologic concerns, as well as assist on rounds and care for patients admitted to the Inpatient Gynecology service. Students will also participate in surgical cases in the operating room and will attend Gynecology procedure clinic under the supervision of residents and attending physicians. Duration: 4 weeks year-round |
| Ophthalmology | OPHM 891 | Ophthalmology | To learn about specific eye diseases by working with comprehensive ophthalmologists trained in certain fellowships such as glaucoma, retinal diseases, pediatric ophthalmology, neuro, oculoplastics, cornea, and laser surgery. Duration: 4 weeks clinical year round Faculty Medical Offices+ |
| Orthopaedic Surgery | ORTH 891 | Orthopaedic Surgery | The student will primarily learn about musculoskeletal physical examination of the orthopaedic patient, and subsequent diagnosis and treatment skills and options. Duration: 4 weeks year-round |
| Anatomic Pathology | PATH 891 | Pathology and Human Anatomy | Students will have exposure to the field of practical anatomic pathology, with emphases on (1) proper handling, gross description and microscopic diagnosis of tissues removed at surgery; (2) process of intra-operative consultation (i.e. "rapid frozen section") including its indications and limitations; and (3) process of hospital-based autopsy. Make-up assignments will be given if absence is in excess of two days during a 2-week rotation. Duration: 4 weeks year-round |
| Pediatrics – Allergy / Immunology | PEDS 891 | Pediatrics | Students become familiar with evaluation and management of children with allergic rhinitis, bronchial asthma, atopic dermatitis, food, drug and insect allergies. Exposure to children with immunodeficiencies. Duration: 4 weeks year-round |
| Pediatrics – Cardiology | PEDS 891 | Pediatrics | Basic understanding of fetal circulation and newborn circulatory adjustments. Anatomy, physiology and medical-surgical treatment of most common congenital heart diseases. Preference to students going to Pediatrics. Duration: 4 weeks year-round |

| Dadiatoiaa | DEDC 004 | Dadistrias | Ct. doute develor or and outer dire of a surel |
|-----------------------|-----------|-------------|--|
| Pediatrics – | PEDS 891 | Pediatrics | Students develop an understanding of normal |
| Endocrinology | | | growth and pubertal development. Have an |
| | | | understanding of common endocrine |
| | | | problems. Introduced to endocrine disorders |
| | | | such as CAH, delayed puberty, etc. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – Forensic | PEDS 891 | Pediatrics | Propel students to the understanding and |
| | | | conviction that children are extremely |
| | | | vulnerable. Exposure to the reality of sexual |
| | | | abuse in children. Beginning recognition of |
| | | | possible child abuse. How to report child |
| | | | abuse and physician's legal responsibilities. |
| | | | Preference to students going into Pediatrics. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | |
| | PED2 931 | Pediatrics | Inpatient and outpatient exposure to major |
| Gastroenterology | | | issues and disease in pediatric GI. Exposure to |
| | | | the effect of GI disease on normal growth and |
| | | | development. |
| | | | Preference to students going to Pediatrics. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – Genetics | PEDS 891 | Pediatrics | Students to have exposure to the medical |
| | | | specialty of clinical genetics. While this is a |
| | | | predominantly pediatric specialty, students will |
| | | | also have the opportunity and exposure to the |
| | | | adult services seen by genetics. The student |
| | | | will be able to be immersed in the consult |
| | | | service and come to clinics. Thus, gaining the |
| | | | understanding around the diagnostic odyssey |
| | | | that many of our patients have experienced. |
| | | | Enabling the student to understand the testing |
| | | | algorithm and interpretation. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Inpatient and outpatient exposure to pediatric |
| Infectious Disease | 1 203 031 | 1 Calatrics | ID, including pediatric AIDs patients. Broaden |
| illiectious Disease | | | knowledge of pediatrics in the realm of |
| | | | Infectious Disease. |
| | | | |
| | | | Preference to students going into Pediatrics. |
| 5 lt | 2520001 | D 1: | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Students will be exposed to the most common |
| Nephrology | | | pediatric nephrologic problems. Exposure to |
| | | | fluid management in renal failure patients. |
| | | | Exposure to types of renal dialysis in the |
| | | | pediatric patient, from premature neonate to |
| | | | adolescent. Exposure to pediatric renal |
| | | | transplant patients. |
| | | | Preference to students going into Pediatrics. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Students will become familiar with common |
| Neurology | | | pediatric neurologic problems. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Student will function as sub-intern on inpatient |
| Hem/Onc | | . 55.56.105 | service. Exposure to common pediatric |
| One | | | hematologic and oncology problems such as |
| | | | mematorogic and oncology problems such as |

| | | | ALL; neuroblastoma, Wilms, Sickle Cell Disease, Hemophilia, etc. |
|---------------------|-----------|-----------------------|---|
| | | | Preference to students going into Pediatrics. |
| D 11 . 1 | 555555 | 5 11 | Duration: 4 weeks year-round |
| Pediatrics –NICU | PEDS 891 | Pediatrics | Students will get an understanding of common |
| | | | diseases of the newborn (pre-term, term, post- |
| | | | term). Active participation in care and |
| | | | management of sick newborns. Understanding |
| | | | of the biopsychosocial aspects of the newborn |
| | | | and family, including bonding and grieving. Preference to students going into Pediatrics |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Students become familiar with evaluation and |
| Pulmonology | FLD3 891 | rediatrics | management of children with asthma, chronic |
| rainionology | | | cough, obstructive sleep apnea. Exposure to |
| | | | children with cystic fibrosis and medically |
| | | | complex children with respiratory issues. |
| | | | Preferences to students going into Pediatrics. |
| | | | Duration: 4 weeks year-round |
| Pediatrics – | PEDS 891 | Pediatrics | Provide inpatient and outpatient exposure to |
| Rheumatology | 1 200 001 | T calacities | pediatric rheumatology conditions such as |
| | | | juvenile rheumatoid arthritis and systemic |
| | | | lupus erythematosus. |
| | | | Preference to students going into Pediatrics. |
| | | | Duration: 4 weeks year-round |
| Physical Medicine | PMRH 891 | Physical Medicine and | Students are familiarized with the spectrum of |
| and Rehabilitation | | Rehabilitation | rehabilitative patient problems and learn how |
| | | | to formulate a treatment program for them. |
| | | | Students learn the role of rehabilitation |
| | | | medicine and experience the variety of |
| | | | inpatient, outpatient, consulting and laboratory |
| | | | services. |
| | | | Duration: 4 weeks No rotations in December. |
| Preventive Medicine | PRVM 891 | Preventive Medicine | Students will be exposed to the medical |
| | | | specialty of Preventive Medicine through |
| | | | addiction and occupational medicine clinics, |
| | | | clinical lifestyle medicine, travel medicine, HIV |
| | | | clinics and more. Students will also gain a |
| | | | further understanding of population health |
| | | | through a public health quality improvement |
| | | | project. |
| | | | Duration: 4 weeks |
| Preventive Medicine | PRVM 891 | Preventive Medicine | Students will gain exposure to a variety of |
| Occupational | | | occupational and environmental cases |
| Medicine | | | including worksite injuries, illnesses, toxic |
| | | | exposures, pre-employment physicals, and |
| | | | fitness for duty evaluations. |
| | | | Students may also work with various |
| | | | industry partners to improve safety in the |
| | | | workplace. |
| | | | Duration: 4 weeks year-round |
| Preventive Medicine | PRVM 891 | Preventive Medicine | Students will be exposed to the medical |
| -Lifestyle Medicine | | | specialty of Lifestyle Medicine through the |

| Preventive Medicine- | PRVM 891 | Preventive Medicine | application of the pillars of lifestyle medicine in the inpatient and outpatient setting. Students will rotate on the lifestyle medicine inpatient service, at addiction medicine sites, lifestyle and obesity clinics, sleep medicine clinic, physical activity groups and more. | Psychiatry – Inpatient | | | 3-4 patients under close supervision. May also |
| & Outpatient | | | include management of patients in clinic with |
| | | | direct supervision and attend AA meetings. |
| | | | Students will take call. |
| | | | Duration: 4 weeks year-round |
| | | _ | Behavioral Medicine Center |
| Surgery – | SURG 891 | Surgery | Provide the senior medical student with broad |
| Cardiothoracic | | | exposure to a variety of congenital and |
| | | | acquired cardiothoracic disorders. The student |
| | | | will become familiar with the preoperative |

| | | | evaluation and assessment of patients with common cardiothoracic disease and participate |
|-----------------------|-----------|---------|--|
| | | | in their preoperative care. |
| | | | Duration: 4 weeks year-round |
| Surgery – ENT | OTOL 891 | Surgery | This elective offers an overview of clinical |
| 30.80.7 | 0.01001 | 080.7 | otolaryngology and the basic evaluation and |
| | | | treatment of common head and neck. |
| | | | Students participate in the care of patients and |
| | | | actively participate in the OR. |
| | | | Duration 4 weeks year-round |
| Surgery – General | SURG 891 | Surgery | This elective will expose students to a broad |
| (LLUMC) | 30110 031 | ou.gery | overview of common adult general surgery |
| (LLOWIC) | | | problems with special emphasis on complex |
| | | | abdominal wall, enterocutaneous fistula, |
| | | | advanced minimally invasive and general |
| | | | surgical procedures. |
| | | | Duration: 4 weeks year-round |
| Curaoni | NEUS 891 | Curaoni | |
| 0 - / | NEO2 931 | Surgery | This elective will acquaint students with the |
| Neurosurgery | | | daily practice of neurological surgery and/or |
| | | | related research. To refine the student's |
| | | | capability in examining the neurosurgically ill |
| | | | patient and in understanding a basic level of |
| | | | surgical management of commonly |
| | | | encountered neurological problems. |
| | | | Duration: 4 weeks January-November |
| Surgery – Pediatric | SURG 891 | Surgery | This elective will acquaint the student with the |
| | | | daily practice of pediatric surgery. To improve |
| | | | the student's ability to perform a history & |
| | | | physical examination on pediatric patients, |
| | | | including neonates and refine the student's |
| | | | understanding of the embryology, physiology |
| | | | and pathology of very common pediatric |
| | | | surgical conditions. |
| | | | Duration: 4 weeks year-round |
| Surgery – Plastic and | SURG 891 | Surgery | This elective will introduce the student to |
| Reconstructive | | | diversity of plastic and reconstructive surgery |
| | | | practice including craniomaxillofacial surgery, |
| | | | surgery of the hand and complex wound |
| | | | management. To introduce the senior student |
| | | | to the reconstructive "mind-set" and approach |
| | | | to patients. |
| | | | Duration: 4 weeks year-round |
| Surgery – Surgical | SURG 891 | Surgery | This elective will provide students with a broad |
| Oncology | | | overview of common adult surgical oncology |
| | | | problems with special emphases on |
| | | | hepatobiliary, colorectal, pelvic, pancreatic, |
| | | | melanoma and soft tissue sarcoma surgical |
| | | | procedures. |
| į | | | Duration: 4 weeks year-round |
| | | | Daration: 4 Weeks year round |
| Surgery – Thoracic | SURG 891 | Surgery | This elective will provide an introduction / |
| Surgery – Thoracic | SURG 891 | Surgery | |

| | | | cancer, esophageal cancer and benign esophageal disease. Duration: 4 weeks year-round |
|--------------------|----------|---------|---|
| Surgery – Urology | UROL 891 | Surgery | This rotation is designed for the elective student to fill the role of an intern on service. The general goal is an overview of general urologic practice and some specialties within urology including pediatric urology, urologic oncology and infertility. Duration: 4 weeks year-round |
