

Inland Empire Stem Cell Consortium

Winter 2019 Stem Cell Seminar Series (CMDB 255)

- Feb 4** **Atena Zahedi, Ph.D.** (UCR – Talbot Lab)
“Decoding the Molecular Mechanisms Underlying Electronic Cigarette Toxicity in Lung Cells, Cancer and Early Development”
- Feb 11** **Yiming Livelo** (UCR – Cheloufi Lab)
“Investigating the role of CAF-1 histone chaperone in cellular plasticity”
- Feb 18** **Presidents’ Day (No Seminar)**
- Feb 25** **Nabjot Sandhu** (UCR – Garcia-Castro Lab Part 2)
“The Role of EPH Receptors in Neural Crest Development, from Formation to Palatogenesis”
- Mar 4** **Victor Camberos** (LLU – Kearns-Jonker Lab)
“The Hippo/Yap signaling pathway in cardiovascular repair”
- Mar 11** **Cornelia Stoian, Ph.D.** (LLU – Payne Lab)
“Cytokine Overdose: A potential therapy for the treatment of CRLF2+ B cell leukemia”

.....**Seminar: 12:00 PM – 1:00 PM**

Location:

UCR - Genomics Auditorium

Video Conference with Loma Linda & Western University

LLU - 2208 Centennial - Contact Dr. Ubaldo Soto (usoto@llu.edu)

Western U - Contact Dr. Jijun Hao (jhao@westernu.edu)
